Dear Maureen,

I am writing to thank you and your staff for all the care, attention and encouragement you have shown to mum. If you personally hadn't acted so promptly in calling the ambulance, I know that mum wouldn't be with us now. When mum came out of hospital you all helped her to gain her confidence, she was so frail and afraid after the heart attack, but you soon had her back to her happy self again.

Thank you all so very much, yours is a very special home.

Yours faithfully
Freda Rea
